APPROVED PARTNER

**Experience
perfect vision
with REMEDY Max
Progressive Lenses**

One size does not fit all

Remedy Max progressive lenses are personalized using your unique prescription, measurements, and frame choice to offer a **completely individualized visual experience**.

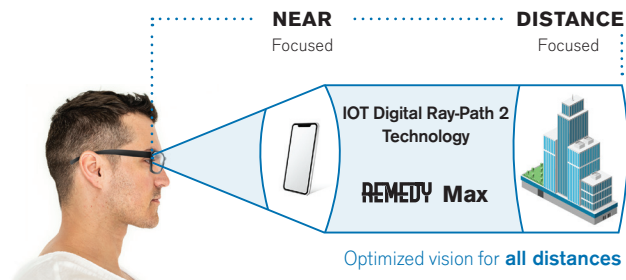

As a result, you have **exceptional visual comfort, impeccable visual quality, and more precise focus**.

You'll benefit from high definition vision and maximum visual fields in the distance, intermediate, and near zone.

Benefits

- Precise and comfortable focus for all working distances in any direction of gaze
- Near elimination of peripheral blur
- Superior visual quality for viewing digital devices
- Higher image stability for reduced swim effect
- Improvement of peripheral visual quality in the distance zone

A lens adapted to any situation

Remedy Max progressive lenses include IOT Digital Ray-Path 2 Technology. This patented innovative technology personalizes your lenses, for **crisp vision at all distances**.

Superior image stability for more comfortable vision

Remedy Max progressive lenses incorporate patented Steady Methodology, a technological breakthrough in digital lenses. **This improves peripheral visual acuity, reduces swim effect, provides superior image stability, and offers more comfortable vision.**
